

WAY DOWN SOUTH IN DIXIE LAND

Great Crowds Cheer Roosevelt on His Arrival in Charleston.

PROGRAM OF VISIT

Tomorrow Set Aside for a Series of Special Presidential Ceremonies.

WILL RETURN FRIDAY

Charleston, S. C., April 8.—President Roosevelt, who began his trip to Charleston, S. C., yesterday afternoon arrived here this morning at 9:30 o'clock. The party was met at Summerville, S. C., twenty-two miles from Charleston, by a special committee, including Mayor Smyth and Mr. Hemphill, who accompanied the president the remainder of the journey.

The train stopped about one and one-half miles from the southern railway depot, at a street railway crossing, where the president and his party were transferred to special trolley cars, which were in waiting. The party then proceeded direct to the navy yard to inspect the government property there, after which a trip was made on a revenue cutter down the river and bay, visiting Fort Sumter and other points of interest. Luncheon will be served on board the cutter. Return to the city will be made about 4:30 o'clock and the party conducted to the St. John's hotel.

This evening the president will be entertained at dinner at the Charleston by the city of Charleston, the invited guests numbering about 150. While the dinner is in progress Mrs. Roosevelt will hold a reception in the ballrooms of the St. John's hotel to the members of the Woman's department of the exposition company and such guests as they may invite, the total number limited to 500.

Tomorrow Is President's Day

Tomorrow is to be president's day at the exposition, and the president and the members of his party will be escorted from St. John's hotel to the exposition grounds by a civic and military parade which will be reviewed by the president upon arriving at the grounds.

The exercises of the auditorium will consist of addresses by the president of the exposition company, the Mayor of the City of Charleston, the Governor of South Carolina, and the Governor of North Carolina, to which the president will make a response.

Upon the conclusion of the exercises in the auditorium the president and party will be taken through such exposition grounds as may be practicable, and entertained afterwards at luncheon in the Woman's Building. Following the luncheon the party will take their train at 4 o'clock at the exposition grounds and proceed to Summerville where they will be entertained at dinner in the evening at Pine Forest Inn by the president of the exposition company. Wednesday night will be spent at the Inn.

Last Day Given to Sight Seeing

Thursday morning, April 10, it is intended to visit the tea farm at Summerville and to drive to Magnolia Gardens on the Ashley River. Luncheon will be served at the Pine Forest Inn, after which at 2 o'clock the party will leave for Washington, arriving there on Friday morning, April 11, at 7:30 o'clock.

RECIPROCITY FIGHT WILL BEGIN TODAY

Long Deferred Battle Over the Cuban Affair Up in the Lower House of Congress.

Washington, April 8.—The long deferred battle over Cuban reciprocity will begin in the house of representatives today. It is a curious and significant fact that the forces which are opposed to the programme of the committee on ways and means have no comprehensive plan of action. They do not know exactly what they are going to do, probably for the reason that they do not know whether their following will be numerically strong enough to force Speaker Henderson and his friends to grant concessions.

The beet sugar insurgents of the republican party have dwindled to insignificant numbers. The democrats are divided and disorganized. Some of them are in favor of reciprocity and willing to accept any measure of relief which the majority may offer for Cuba. Others are opposed to the pending bill because they claim that it is designed to aid the sugar trust and not the Cuban planters. Still others hold different views.

In order to arrive at some harmonious understanding the democrats will hold a caucus tonight. It is extremely improbable that they will agree upon a programme.

FAMINE RAGING IN TAPALA, TEXAS

Word Reaches Laredo That People Are Starving in Drought Stricken Country.

Laredo, Tex., April 8.—Letters were received today from County Clerk Peter Valls, Sheriff and Tax Collector Lozano, and County Judge Spohn of Zapata County, in response to inquiries as to the state of affairs in that section. They confirm the previous reports of the destitute condition of the people. County Clerk Valls in his letter says: "I cannot in words picture the misery, privations, and suffering afflicting our drought stricken county. To say some families have one scant meal a day is expressing it mildly. While I cannot state positively that any people have actually died of starvation, I can say, in all truth, and all the residents here will bear me out, that many have died that were sick who could have been easily saved if nourishment had been at hand."

FOUR YEARS LONGER OF THE BOER WAR

Renewed Hope by Burghers—Think England Will Be Drawn Into an Eastern War.

The Hague, April 8.—There is little faith among Boer sympathizers here that peace is imminent in South Africa. Hearts are hardened in consequence of the conferences held here and at Utrecht, and the Boer envoys and refugees are asserting in a louder key than ever that the war will last four years longer and that there can be no peace without independence.

The credulity of the burghers in South Africa is matched by the assumption of their agents here that deliverance is coming from England's foreign complications, when there is not a cloud in the sky.

When the three Boer commissioners were sent to America it was assumed that a good case would be made out for the investigation of the military conduct of the war and that the shipment of supplies of horses and mules from the United States would be prohibited.

When the three Boer commissioners were sent to America it was assumed that a good case would be made out for the investigation of the military conduct of the war and that the shipment of supplies of horses and mules from the United States would be prohibited.

These illusions were dispelled when the delegates returned, but a new action has been supplied. Boer advocates are now asserting that England is fatally and fatally embarrassed by the alliance with Japan and will certainly be drawn into a war of tremendous magnitude in the far East.

Boer sympathizers are consequently justifying an indefinite continuation of the guerilla warfare and forecasting of the cause of independence when British troops cannot be spared from the larger theater of European operations.

MAKE A KICK ON EXCLUSION BILL

Notable Californians Protest Against Exclusion of Chinese Merchants, as a Gross Injustice.

Washington, D. C., April 8.—The president's protest laid before the senate this morning a lengthy telegram of protest against the Chinese exclusion bill. Signed by Claus Spreckels, H. D. Scott and a dozen other capitalists of San Francisco, who characterized as a gross injustice the provision of the measure excluding Chinese merchants. Patterson of Colorado presented a petition from 319 American citizens of Honolulu praying for the exclusion of Chinese and Japanese laborers from the United States or any of its possessions.

The republicans of the house committee on insular affairs today concluded their work on the Philippine civil government bill and will tomorrow submit it to the full committee for consideration. The democrats will report a minority measure.

General MacArthur continued his testimony before the senate Philippines committee today. With regard to the political and economic conditions of the island he said had come to the conclusion that the best type of republican institutions could be planted there and once planted would never be eradicated. He considered the permanent occupation of the Philippines by the United States of paramount importance and essential to national development. He believed we are instruments by which great events are to be accomplished.

London, April 8.—The cabinet met this afternoon and it reported that the ministers discussed at length the South Africa situation. Rumors of considerable reaction toward a peace settlement are persistently current. Bulwyo, April 8.—The remains of Rhodes arrived here today. Demonstrations of sorrow are seen on every hand. The body will be buried at Natophio Hills on Thursday.

ELECTIONS HELD IN MANY STATES

Grand Rapids, Mich., Puts in a New Set of City Officials.

OHIO VOTE LIGHT

Democrats Won in Butte and Annaconda, and Republicans in Helena.

VERY LITTLE POLITICS

Chicago, April 8.—Municipal and township elections were held Monday in Michigan, Ohio, Iowa, Montana and North Dakota. In the first named state the most noteworthy contest was at Grand Rapids, where the recent waterworks scandals and a general movement to secure a new set of officers in the city hall was an important factor in the campaign. Mayor George R. Perry was defeated by W. Millard Palmer, the republican candidate, who was put on the ticket Saturday night after the death of Arthur R. Rood, the regular nominee. Mr. Palmer's majority is 2,000. The entire republican ticket was successful. Messrs. Targart for city attorney leading by about 3,000. Others elected were William H. Haggerty, judge of police court, and George G. Lamb, clerk of the superior court.

Of the other Michigan cities the republicans carried Kalamazoo, Traverse City, Greenville, Grand Haven, South Haven, Stanton, Belding, Muskegon and Big Rapids. The democrats were successful in Benton Harbor, Bay City, Marshall, Hastings, Adrian, Petoskey, Dowagiac, Holland, Ionia and Ypsilanti. A citizens' ticket was elected in Ludington. James F. Hammett was chosen mayor of Lansing after a campaign in which party lines were closely drawn. A divided ticket was elected in St. Joseph.

The vote in Ohio was very light. In most of the large cities only minor officers were chosen. The republicans carried the following: Cincinnati, Columbus, Toledo, Steubenville, Springfield, Washington Court House, Celina, Fostoria, Van Wert, Ironton, Millersburg, Troy, Xenia, Zanesville, Hillsboro, Wilmington, Warren, Salem, Jackson, Lebanon, Greenfield, Portsmouth.

The democrats were successful in the following places: Cleveland, Dayton, Findlay, Hamilton, Sandusky, Bucyrus, Wooster, Middletown, Tiffin, Kenton, Chillicothe, East Palestine, Shelby, Wapakoneta, Columbus Grove.

The offices were divided in these towns: London, Newark, Marietta, Canton, Bellefontaine, Urbana, Wellston, West Union, Massillon, Plaquemine.

Mayor C. H. Berg, republican, was re-elected in Dubuque, Iowa, by a large majority. The republicans gained control of the council in Keokuk.

In North Dakota the republicans carried Bismarck and Grand Forks. At Fargo Mayor J. A. Johnson, republican, former president of the American League of Municipalities, was defeated for re-election.

In Montana the democrats were successful in Butte and Anaconda and the republicans in Helena.

Hartford, Conn., elected a labor candidate for mayor. Following the lead of Bridgeport, which elevated Dennis Mulvihill, a fireman, to the head of the city's affairs, and imitating also San Francisco, where Eugene E. Schmitt, an orchestra leader, is mayor, the voters of the capital committed the mayoralty into the hands of Ignatius A. Sullivan, a walking delegate who has never been identified with local politics.

NEW INDUSTRY FOR JANESVILLE

Prospects Good for Location of Cement Post Co. in This City.

BONUS IS IN SIGHT

Business Men at a Meeting Last Night, Decide That They Must Have It.

LAST DAY TOMORROW

At a meeting of the Business Men's Association steps were taken that mean a great deal for the industrial development of Janesville and means the erection of a plant to cost over \$30,000, the employment of 100 men and the laying of a side track to cost about \$9,000.

The meeting was called to order by President Levi B. Carle and Secretary A. E. Bingham kept the minutes. Pres. Carle said the meeting was called to hear the report of the committee, having in charge the matter of raising a bonus for the Cement Post Co.

Needed \$350 More. C. S. Jackman, as chairman of the committee read the report. He stated that the committee had circulated a subscription paper and had raised all of the required amount but \$350. He also stated that L. C. Carle and H. W. Morgenthaler were here Saturday and had signed an agreement that was satisfactory to the committee and when signed by the officers of the association they would begin work at once. Mr. Jackman read the contract which in substance is as follows:

That within four months of the time of the signing of the contract the American Cement Post Co., would erect a plant and install machinery, therein to the value of \$30,000 and would employ seventy-five men before the bonus would be asked for. That the Business Men's association shall pay to the American Cement Post Co. a bonus of \$5,000 and furnish a site for the plant, containing ten acres near the northwest corner of the Lemuel Paul farm, said ten acres to be selected by D. W. Hayes and H. H. Clough.

Furnished a Forfeit Bond. Malcolm Mount moved that the report be accepted and L. B. Carle said the \$350 needed to make the required amount should be raised before the contract was signed. He also stated that the company had furnished a forfeit bond that they will perform their part of the program. He further stated that the committee had given their personal guarantee of the fulfillment of the association's part of the contract.

Passed a Resolution. M. O. Mount presented the following resolution which was adopted with out a dissenting voice.

"Resolved—That the contract as read by the chairman of the committee be ratified by this association and that the president and secretary be and hereby are authorized to execute the contract on behalf of the Janesville Business Men's association as soon as directed by any two of a committee consisting of J. M. Whitehead, George G. Sutherland and M. G. Jeffris, who are appointed a committee to pass upon all legal questions in relation to the contract, and the association pledges itself to the payment of the remainder of the sum due on the required bonus."

Mr. Bingham stated that the option on the Paul farm expired next Thursday and action in the matter must be taken at once.

Additional subscriptions. Mr. Carle said that \$350 was yet to be raised and he thought no time like the present to push a good thing and as every body in town had been invited by the soliciting committee all that could be done was for those who had subscribed to increase the amount and he put down his name for \$20 more. This was followed by others who subscribed as follows:

L. B. Carle	20.00
Marshall Co.	10.00
J. F. Swanney	25.00
S. B. Buckmaster	10.00
F. S. Winslow	10.00

New Committee Named

Mr. Hayes stated that the time for the acceptance of the contract by the association expired April 10, and if the contract was not accepted before that date it would be withdrawn. He also stated that one or two legal points should be settled before the contract is signed and he moved that a committee consisting of John M. Whitehead, George G. Sutherland and M. G. Jeffris be deputed to arrange these matters and that when these matters the association enter into the deal.

The motion of Mr. Hayes was accepted by Mr. Mount as an amendment. Mr. Hayes further stated that the railroad company thought well of the scheme or they would not put in a side track. At an expense of about \$9,000 and that work on the plant would begin within ten days from the time of signing of the contract.

Mr. Hayes also said that on behalf of the committee he wished to thank the citizens of Janesville.

CENTRAL ROAD HAS BOOM ON MARKET

Stock Issues Touch Highest Prices in Months on Rumors of Favorable Alliances.

New York, April 18.—The strongest active railway stock on the Stock Exchange yesterday was Wisconsin Central, the common and preferred issues selling up to the highest prices recorded in some months.

The buying was of an aggressive kind, and, coming as it did when the general market was heavy, was regarded in connection with one of the other of the plans reported to be developing in respect to the property. One report had it that a definite offer of purchase has been made for the system on behalf of a syndicate whose principal was not disclosed. According to this report \$30 a share was offered for common stock and \$65 for the preferred. This could not be verified.

The other told of new traffic relations with either Illinois or Northern Pacific.

ALDERMEN ENGAGE IN A FIST FIGHT

Police Called in to Stop a Disturbance in the Milwaukee Common Council.

Milwaukee, Wis., April 8.—After a long and stormy session, in which the lie was exchanged between Aldermen Froemming and Zimmerman and the police called in to stop a fist fight, the common council seated William Zimmerman, democrat, and Henry Zimmerman, republican, who both appeared on the face of the returns to have received the most votes through clerical errors of the election inspectors. They are now members of the body but their seats will be contested by quo warranto court proceedings.

Alderman Henry Smith charged that the mistakes of the inspectors were due to the use of liquor in the booths. When the council went into committee of the whole to canvass the returns the mob broke through the spectators' reservation to watch the count and the police had a hard fight of ten minutes to disperse them. The vote by which the contested men were seated was 30 to 14. The council now stands 24 democrats to 22 republicans.

This was the plan decided on at a meeting of the Audubon society yesterday of the Illinois Audubon society yesterday afternoon in the Academy of Sciences. The small boy who pillages birds' nests will also need to have a care during the coming season, as the society, which represents 12,000 persons, has just appointed a committee to watch him. Miss Mary Drummond, secretary and treasurer of the society, reported that during the last year nearly 3,000 members have been added to the society. In regard to the movement proposed by the society to enforce the state and federal laws relating to birds, she said:

EMBRACES MAY COST HIM \$15,000

The James Kissing Trial Opened at Richland Center Today.

STORY OF THE CASE

An Able Array of Attorneys Will Take Part in a Bitter Contest.

WILL BE SENSATIONAL

Richland Center, Wis., April 8.—The case of Mrs. Robert Stayton against D. G. James of this city for \$15,000 damages for three kisses alleged to have been given without the plaintiff's consent, at various times during 1901, came up for trial this morning in the circuit court.

The case will doubtless be one of the most sensational ever tried in Wisconsin, involving as it does in the defendant probably the best known G. A. R. man in the state. That the case will be vigorously contested is the statement of both parties to the controversy. An able array of attorneys will take part in the trial, and Mr. James has avowed his willingness to spend thousands of dollars rather than pay damages for an offense which he declares he never committed.

Evidence Will Be Sensational

All persons involved as witnesses or as counsel for one side or the other are in the city, ready to appear in court at nine o'clock this morning. Among those here, in addition to the witnesses, are Colonel Bird of Madison, who will aid P. H. Ray in the prosecution. F. W. Burnham and L. H. Bancroft will represent Mr. James. The Staytons, husband and wife, have been here ever since Saturday in consultation with their attorneys.

The evidence that will be produced will be sensational. On the one hand is the charge that a woman was insulted by the owner of the land on which her husband and herself were tenants. On the other Mr. James has said that he will testify that before the suit for damages for the three kisses was threatened he was asked to pay board for a dog and other incidental expenses about the farm and that the present suit was only brought when he refused to pay the full amount demanded on these accounts which he offered to compromise.

Story of the Case

The story of the case is as follows: The Staytons were tenants of the James farm near Baraboo. Mr. James according to the complaint of Mrs. Stayton, was a frequent visitor at his farm. Once in the spring he is alleged to have kissed her. Another time he is alleged to have hugged her and a third time, some months later, she avers she was forced to endure his embrace. Her damages are set at \$5,000 a kiss. It was shown, according to the brief filed, that a painter was at the house when one of the alleged kisses was given, but Mrs. Stayton said she did not scream because she "was not afraid of the devil" and could take care of herself.

Mr. James counter-charges are that the suit was threatened when he refused to pay the full amount asked for three of a pet dog and for extra work done about the farm.

KINDERGARTENS STRONGLY URGED

Rev. James S. Stone Talks of the Matter from His Pulpit in Chicago

There is a fight against the kindergarten system in the public schools in Chicago, says the Record-Herald.

Influential members of St. James' Episcopal church have been called upon by Rev. James S. Stone, rector of the parish, to do their utmost to prevent the abolition of the public school system. The appeal was made yesterday morning before Dr. Stone began his sermon.

The rector stated that he rarely broke his rule to speak of anything during the church services that did not pertain to church affairs.

"A very grave danger threatens our public school system," he declared, "and for this reason I desire to take this opportunity to call your attention to the matter. It is proposed to do away with kindergarten department of the public school system and I believe that no right-minded citizen can view the prospect without a shudder of grave alarm."

"It is a beginning, if a beginning must be made, at the wrong end. If there must be retrenchment let it not be in respect to that period of the educational work which is the most important of all. It is absolutely essential to good manhood and good womanhood and good citizenship that the mind be properly nurtured the first six to ten years of life."

"This fact will impress itself strongly upon most anyone if the matter is thought of carefully. It is a deplorable fact that any portion of our public school system must be abandoned, if we can better afford to lose any other part of the system than the kindergarten. If this period of the life of the young is neglected the greatest value of future education will be lost, no matter how careful the training may be and no matter how far it may extend."

"One might as well expect to starve the tender shoot and later see a magnificent and luxurious tree blossomed into full beauty, by careful nurture. I do not need to tell you that the most impressionable period of life is the most important, and to neglect this in our educational system is little short of a crime."

"For these reasons I desire to call upon every member of St. James' church to use his or her utmost influence with the members of the board of education and with those in authority to the end that this great wrong shall not be done the young of this great city. By combined effort we may prevent this thing, and if we do not we shall ever have reason to deplore the fact."

TO AID STUDENTS IN THEIR WORK

Wisconsin Educators Believe It Will Add Stimulus for Post Graduate Work in England.

There is very little doubt that Wisconsin university graduates will take advantage of the fund set aside under the will of Cecil Rhodes for the establishment of two scholarships in Oxford university for Wisconsin students, and that the scholarships will rarely be vacant.

Probably few Wisconsin people are aware that although there have been no scholarships in former years open to Wisconsin people, that already quite a number of Wisconsin men who have been graduated from the university have taken post graduate work at Oxford among the best known of students who have studied for some time at the famous English university having been the Rev. H. H. Jacobs, the present pastor of the Hanover Street congregational church in Milwaukee. How the establishment of the scholarships is viewed by Wisconsin university professors can be seen by the following interview with acting president Birge:

"It is a plan worthy of Rhodes to bring together, at the historic center of English learning, the young men who in scholarship, temperament and

character best represent the English-speaking race in all parts of the world. The plan is one which has great possibilities, educationally and politically, but the idea is unique and one must hesitate to predict regarding its success, especially as applied to the United States. The conditions under which students are to be chosen, while well suited to Rhodes' plans, will be somewhat difficult to administer in connection with our school system."

The members of the faculty at Madison are awaiting with a good deal of interest further details of the will to learn how the ward of the Oxford scholarship is to be made to students of the various states of the United States.

AMUSEMENT NOTES.

"The Burgomaster" with an "all star" cast and the original New York production, is the cheery announcement for Saturday matinee and night April 12, which manager Myers has arranged to present instead of "The Explorers" booked for the same date. This change of program has only been accomplished by extra monetary inducements on the part of the local management, and prompted by the most urgent requests on the part of many of the patrons. The costumes are more elaborate and gorgeous to a degree than that of the Western aggregation seen here on previous occasions. In addition many high class operatic, vaudeville and burlesque features will be introduced that have been voted the later rage of New York and all the eastern cities of prominence. The cast is the original New York aggregation and comprises many of the foremost celebrities of the operatic, vaudeville and burlesque world of today, consisting of Richard Carle, Edith Hutchins, Knox Wilson, Agnes Paul, Wm. Riley Match, Josie Intropoli, Carlton King, Luella Drew, Wm. B. Rock, Rose Les-

lie, George Romahn, Ida Stanhope, Hillard Campbell, Amy Dale, Frank Randall, Grace and Madge Wallace, and a large, dashing chorus array of singing and dancing girls, the acme of youth and chic.

Melody and song that had in its ring the rollicking, care free life of the American college student was administered in liberal proportions by the Beloit Glee club last night to a big, good natured audience in the auditorium of the Sioux City high school.

The auditors were good listeners, the kind that inspires a glee club to its best efforts. They noised their appreciation in vociferous applause wherever opportunity was offered and insisted upon recalling the young collegians for an encore after every number of the program.

From a standpoint of musical perfection the two clubs were all that could be asked. They played and sang a series of musical selections which ranged from the burlesque to the difficult and classical and satisfied the audience in each case to a like degree.—Sioux City Journal.

THE RELATION OF GOLF TO PROFANITY

Stuart Robeson, the Actor, Illustrates an Event Coming Under His Own Observation.

"Golf," said Stuart Robeson the other day, in the course of a conversation with a party of friends, "is undoubtedly a great pastime, but, like all things, it has its faults. While I am not what one might call a golfing enthusiast, nevertheless, I have discovered one thing, and that is that golf is about the best incentive for profanity ever discovered. Why, having your pet thumb with a tack-hammer isn't a marker compared to the new game. Golf will wring eloquent and allegorical, picturesque and emphatic metaphors from the souls of Sunday school superintendents. And speaking of the matter, I can't help thinking of an incident that came to pass down at my summer home, Water Witch, Navesink Highlands, last summer. It appears that some of the cottagers got together and laid a set of links and organized a golf club. The game became quite the thing among the summer residents there. Every one acquired the golf craze. Among the new devotees of the game was my neighbor and friend Commodore 'Lon' Stevens, a retired sea captain. The commodore pegged away in the sun for a couple of weeks and finally became proficient enough to negotiate the short course in about 25 strokes. Then it became a craze with him. It was certainly a sight for an artist to see the old seadog sweltering in the July sun as he would smash away at the bit of gutta percha in a wild endeavor to drive it out of a hollow. It is unnecessary for me to state that the language the commodore used at these moments were hardly of the kind used to describe a Methodist conference. In fact, his language was so strong that his wife informed him that he must either give up golf or profanity. The commodore protested he did not remember of using any swear words while going over the course, and if he did so, it was unconscious on his part."

"So in view of this, his wife offered a suggestion. The next time the commodore went over the links why not, to check the habit of swearing, each time that he uttered a swear word, put a pebble in his pocket?"

"The old seaman, like most all his kind, was in every way a respectable and good-hearted chap, so he was anxious to make himself congenial to the other members of the club as possible, so he readily assented to his wife's idea."

"Next morning, as he shouldered his bag and started for the links, his good wife called to him from the veranda of their cottage:

"Remember, Lon, put a pebble in your pocket every time you say a bad word."

"All right!" was his reply as he marched away.

"Along about noon the commodore, fresh and dusty, came up to the lane leading to his home. His wife was on the porch to meet him."

"What's the matter?" asked his wife.

"Well, answered the commodore, reaching into his coat pocket and pulling out a handful of pebbles, 'here's your 'damn its.' Then, digging both hands into the pockets of his knickerbockers, he drew forth two handfuls of pebbles, which he threw on the porch, saying: 'And there's a few 'damns.'"

"His wife stood looking at him in horror."

"And," continued the golfer, with a vindictive glance, the 'hells' will be here in a minute on a wagon."

WEATHER FORECAST.
Partly cloudy, tonight, Wednesday warmer.

TEMPEST IN A TEAPOT.

The Milwaukee correspondent of the Chicago Inter Ocean, had a letter in last Sunday's issue, in which he attempted to make it appear that Senator Whitehead was about to be side-tracked to gratify the whim of a few ambitious politicians. While the correspondent, Mr. Hooker, has been identified with Milwaukee Journalism for a number of years, and has contributed much to the success of the paper he now represents throughout the state, he has more or less disgruntled ever since Senator Whitehead's letter of acceptance was published, because it did not in all respects meet his personal views. His utterances since that time have been more or less erratic, and his latest effort is in keeping with the policy pursued.

The Inter Ocean is a good newspaper but it has but little influence on Wisconsin politics, and will have nothing to do with shaping the destiny of the republican party in the state.

Senator Whitehead is the people's candidate for governor. He did not seek the honor, and only accepted the call, after it was apparent that a strong republican constituency throughout the state, sincerely desired him to do so. This sentiment was not confined to Milwaukee, and the question of nationality or morality was not considered. He was selected because he was recognized as a statesman of ability and a safe and conservative leader. The fact that the choice was a wise one, and that he was regarded as a candidate of unusual strength, has been fully demonstrated, by the bitter opposition that has developed against him. All sorts of charges have been preferred and as a last extremity an effort was made to injure his popularity by claiming that he was too good a man for governor. This was the thinnest kind of a gauzy argument, and the men who used it soon discovered that law abiding and law respecting citizens were largely in the majority.

Senator Whitehead is not on trial so far as his moral character is concerned, and if he was, there is no occasion for apology or trimming. The issue that places him before the people is not a personal issue. He is selected as the exponent of a principle by the conservative element of the party, and the selection was neither hasty nor ill-considered. The choice was made not by Mr. Hooker of the Inter Ocean, nor by the republicans of Milwaukee. It was broader than that, touching every county in the state. The sentiment was spontaneous and not manufactured. It is a growing sentiment, and can no more be suppressed or controlled, than the current of a stream. Senator Whitehead is not a boy, neither is he a football. He is a well developed specimen of sturdy manhood. He can neither be intimidated nor bulldozed. When he consented reluctantly to be a candidate, he fully realized the conditions that confronted the party, and his decision was based on duty, and not preference. When he retires from the contest, it will be either as a victorious leader or as a candidate fairly defeated in the convention. This his supporters expect of him, and they will be satisfied with nothing less.

THE DANGER.

The most questionable point in the stock market is among the industrial. During the past few months we have had a succession of unfavorable reports from these concerns, showing decreased earnings, mismanagement and a general failure of the roseate promises in early prospectuses. Under such conditions the loads of overcapitalization begin to have their effect, and not a few concerns, which it is unnecessary to mention, have already undergone marked declines in their quotations. The future of this branch of the market is not promising. The day of reckoning, liquidation and reorganization must come. At present it is delayed by the large demand of all kinds of unmanufactured products; in short, by the general activity of business. As soon, however, as this begins to subside, prices decline and increased expenses cut into earnings, then we may look for results which everyone hopes may be postponed as long as possible.

The above quotation is from Henry Clew's last weekly letter. It is significant, because it forecasts one of the dangers attendant upon a new order of speculation. The industrial stocks referred to are largely a product of the new century, developed and stimulated by an era of prosperity that has no parallel. These stocks cover a large variety of industries. Many of them represented on paper like the mining and oil interest. Stock has been sold at anywhere from 1-2 to 10c on the dollar, and in many instances, the value of property represented was merely nominal. Capital has been solicited from all parts of the country, and millions of dollars have been invested. While here and there an industry of this character has succeeded, in a large majority of cases

the venture has been purely speculative, and the promoter the only man to reap a benefit.

The government had its attention called to a St. Paul concern, the other day, and J. D. King was sent out to investigate. The mining company had a well furnished office in a prominent business block and the mail for the company was so heavy that an extra carrier was employed. The charter of the company was examined, when it was found that an acre of land had been leased in Arizona, and a man with a shovel and pick was scratching over the surface working a claim. The promoter was not a law breaker, so far as fraudulent use of the mails was concerned and he is still bleeding suckers at the rate of several thousands of dollars per month.

This is only one of the hundreds of schemes covered by the high sounding title of industrial stocks. There will, of course, be a reaction, when the day of settlement comes. Men in business will do well to attend to business. There is always a here after.

THE ARMY CANTEN.

The law recently the Army Canteen has absolutely been enforced in the Philippines, and results are anything but satisfactory. A prominent army officer, on the ground, and familiar with the situation, says that drunkenness and disorderly conduct show a large increase, and that in place of beer, which was comparatively harmless, that the boys visit native saloons and get crazy wild on the native beverage known as vino, a concoction so vile, that it discounts any 40 rod whiskey yet discovered. Vio not only produces drunkenness, but insanity. Eighteen victims from the Philippines, recently passed through Chicago on their way to the National Hospital. All of them were in chains and raving maniacs. They were ejected to the use of vino, and the drink was held accountable for their condition.

It is difficult to understand, why people who are supposed to possess common sense, are willing to place their judgment against experience and where this experience is unanimously in favor of the Army Canteen. The world is in no sense ideal, and yet it is good enough to satisfy public sentiment. The saloon may be a moral evil. So is Sabbath desecration, profanity, the social evil, and a long list of immoralities that can not be abolished. The army canteen is abolished, because Congress lacked the courage of conviction on the question, but the drink habit remains, and the train of evils developing are appalling. Better the well regulated Army Canteen, than the wide open saloon.

Bishop Fowler, of the Methodist church, is an advocate of common sense. In speaking to a class of young ministers in New York, the other day, he gave them to understand that common sense was just as important as religion, and more necessary to success. He claimed that the largest devil in the Methodist church today was laziness, and said to the boys, if they would win, they must put as much hard work into their calling, as the average business man. The Bishop has had experience and has been successful.

The fact developed at a recent teachers' institute in Madison, that 3,000 young women are teaching country schools around the state for less money than girls earn who work in the kitchen, and yet house maids are as scarce as hens' teeth, school teachers as thick as blackberries in August. The normal schools are grinding out teachers by the hundred every year, to turn loose on a market that is already glutted. Many of these deluded girls might better spend a year in the kitchen in a little careful study of how to make a home.

The State School for Deaf at Delavan, will celebrate its semi-centennial, this month. An interesting program has been prepared, but the absence of ex-superintendent Swiler's name, is causing some comment. Mr. Swiler was connected with the school for 21 years, devoting his best energies to its development. Common courtesy would have placed his name on the list of speakers.

St. Mary's church, about completed, is an imposing structure, and an ornament to the city. Father Goebel, as well as his parishioners, are entitled to much credit for prosecuting the work to completion. Mr. Roessling, the intelligent designer and superintendent, has left the imprint of his work, and the society is fortunate in securing his valuable services, as a voluntary offering to his church.

The governor is riding all kinds of goats these days. He recently took a trip on a K. P. mount, and is now contemplating a Masonic tour. "Jordan am a hard road to travel" for an aspiring politician, and the governor evidently intends to keep in training.

President James, of the Northwestern National Insurance Company, says that rates are high enough, but expenses should be reduced. Mr. James has struck a popular chord, and is evidently a good advertiser.

The convention of Confederate Woman's clubs, soon to be held in Los Angeles, is likely to have a lively discussion over the color line. These clubs are popular throughout the south, and many of them belong

to the colored race. Twelve states are interested, and the matter of membership in the national organization is important. The chances are that they will be admitted.

England is very much stirred up just now over the war taxes, which have assumed gigantic proportions. The income tax is inadequate and revenue from other sources failed to meet requirements. The free trade idol is threatened, and various schemes are proposed to increase the revenue. While the war is apparently in its last stages, the debt entailed remains as a substantial reminder.

Immigration agents are flooding the country with paper immigrants from Antwerp, sending them in by the way of the Canadian frontier. The Chinese Exclusion act may be considered important, but congress should devise some means to enforce present laws. The pauper from any land is more of a menace, than a thrifty Chinaman.

The oleomargarine bill is not yet out of the woods, and the chances are that it will be hung up in the house committee for several weeks, and may possibly be pigeon holed for the balance of the session.

The Panama canal bill is slated for early attention in the senate, and it is possible that the plan may be favored to refer the choice of routes, to the President, with authority to act.

Santos Dumont, the noted French air ship enthusiast, is on his way to America, to give exhibitions. He will find plenty of atmosphere and an enthusiastic audience.

The president is on his way south to attend the Charleston exposition. It is hoped that the Tillmans, will not be in evidence.

Mayor Harrison, of Chicago, is a little disgusted with his environment, and has about decided that the life of a mayor is not all sun shine.

PRESS COMMENT.
Milwaukee Journal: Minnesota may not be able to secure a perpetual injunction against the railroads, but acquire a perpetual lawsuit.

Marinette Eagle: There is a woman running for Congress in the tenth district of Kentucky. She is on the dry ticket and is raising lots of dust.

Some other weather crank has prophesied another deluge in April, which is to submerge the old world. He is kind enough to exempt Wisconsin from the general destruction for which we never can be sufficiently grateful.—Eau Claire Leader.

The simultaneous announcements that the anthracite coal dealers have made an April cut in prices and that the ice tax is unconstitutional cause the optimistic man to feel that the millennium must be near at hand.—Milwaukee Sentinel.

Neenah Times: When you talk about there being better land than there is in Wisconsin, every potato stily winks its eye; every cabbage shakes its head; every bean gets red in the face; every onion feels stronger; every grain field is shocked; eye strokes its beard; and every foot of land kicks.

Oshkosh Northwestern: The idea of drawing a comparison between the coloring of bogus butter and the complexities of our American girls. Even if the latter does "come in boxes" the proper application of it constitutes true art, quite as difficult and requiring a degree of skill to equal that of the old masters.

Eau Claire Leader: It becomes more apparent every day that the nation must seek for some basis for bank circulation other than government bonds, for the price of these securities has reached a point where there is no longer any profit in using them for bank circulation. This question now confronts the people. It is the most important matter before the country. It will demand the best intellect of the nation.

Two Journals with but a single thought—the Milwaukee Journal and the Madison Journal. Both have been slashing around in the political field for a considerable period, but their two hearts beat as one in the support of Democratic candidates for mayor. Beloit Free Press.

The Number that fell by the Wayside. Every citizen in Milwaukee is interested in knowing how many LaFollette Republicans voted for David S. Rose for mayor, the regular candidate of the democratic party. Rose is known to be a democratic partisan, and therefore the record is important. There are various estimates of the defection. The figures run from 3,400 to 5,000. Maj. Anson, who was the regular and fairly-nominated Republican candidate, estimates that 4,000 LaFollette Republicans voted for Rose. He is naturally backed by those established in the chagrin by so many voters who professed to be Republicans.—Evening Wisconsin.

Burglars in a Brewery

Burglars entered F. P. Williams' brewery last night and carried off several boxes of cigars, two kegs of ale and other property, besides doing considerable damage to the furniture and valuable papers in the office.

They gained an entrance to the brewery by putting their arms through a window that had a light of glass broken out and removing the stops. The damage done the office and furniture amounted to more than the cigars and ale were worth. No clue to the thieves has yet been found, but it is thought that local parties did the job.

JANESVILLE WON A BOWLING GAME

Beat the Harvard Team by 125 Pins—
Another Game at Harvard
Next Monday Night.

The Janesville Bowling team were victorious in their game against the Harvard team by 125 pins. The Janesville boys have met with so many defeats at the hands of outside teams that a victory like the one of last night puts new life into them.

The home team led from the start and were 66 pins ahead in the first game. In the second game the Harvard picked up in their play and reduced the lead the Janesvilles had on them 11 pins. In the third the home team was again victorious by 70 pins, which brought their lead up to 125. They rolled a consistent game and averaged over 800 each game.

The Harvard team are all good bowlers, but were somewhat handicapped by being on strange alleys. They feel confident that they will defeat the Janesville team when they visit Harvard next Monday night.

The little daughter of the house watched the minister who was making a visit very closely, and finally sat down beside him and began to draw on her slate.

"I'm making your picture," said the child.

The minister sat very still and the child worked away earnestly. Then she stopped and compared her work with the original, and shook her head.

"I don't like it much," she said.

"Talk a great deal like you, I guess I'll put a tail to it and call it a dog."—Philadelphia Times.

San Claire Leader: Fortunately for the credit of the state, the Supreme Court of Wisconsin, has declared the ice tax law which passed at his last session of the legislature unconstitutional. It was a foolish idea from the first and it is a matter of surprise how Governor LaFollette could ever bring himself to sign such a bill. It created no end of amusement at the expense of the commonwealth. It was in reality an export tax which is forbidden in the constitution. It will be a salutary warning to future governors to think twice before appending their signatures to such absurd measures.

PUNY CHILDREN

Parents Should Know How to Keep Children Well.

Vinol of Great Assistance.

We do not wish to blame any of our friends for that which they cannot help, but sometimes when we see delicate and puny children, we cannot help feeling that their parents are neglectful.

Fathers and mothers of this town please regard what we say, especially if your little ones are delicate. Everything rests with you; you can make them strong and well; you can fortify their systems so that they will not be in a condition to take every prevalent disease.

You can lay a foundation stone in their little lives that will give you joy and happiness in years to come when they become strong and hearty men and women.

If you will let us tell you about Vinol and follow our advice you will save yourself many sleepless hours and an indefinite amount of worry.

We cannot tell you all we know about Vinol in a few words but we will gladly give you as much of our time as you wish if you will call on us at our store.

We wish to remind you once more that the virtue that Vinol possesses is due to the fact that it contains the active curative principles that have made cod-liver oil famous; there is no grease in it, and we can promise you that its taste is delicious, that it is loved by all children.

We know there is nothing better to assist the stomach of the little ones to properly assimilate the food which they eat. It is the means by which rich red blood is made; strong bone structure is built; hard firm fleshy tissue created; and healthy sound nerves maintained.

The following from Mrs. Jennie Parke, 109 Newman St., Mansfield, O., who says: "I wish to add a few words of praise in favor of Vinol. My little boy was very much debilitated, so much so in fact that he had to leave school. He really was a mere shadow. At that time I decided to give him Vinol. He has now taken a couple of bottles and is rapidly gaining flesh. I wish to recommend Vinol to all who are in need of a tonic."

Not only for children but for adults do we recommend Vinol without reservation and stand prepared to refund all money to those who do not find absolute satisfaction in its use.

Kodol

Dyspepsia Cure

Digests what you Eat

People once thought that the only way to cure indigestion was to stop eating. The trouble with such treatment is, that to stop eating is to stop living. Kodol Dyspepsia Cure has changed the whole method of treating this complaint. It contains all the natural digestive fluids and digests all you eat without aid from the stomach, so you can eat all the good food you want and be cured of your trouble at the same time. "I have been troubled with indigestion and dyspepsia for several years and often sat down to eat but had to give it up after eating only two bites. I used two bottles of Kodol Dyspepsia Cure and am alright to-day. Can now eat anything I want." W. L. Easton, Audubon, Iowa.

Australians Are Charged with
Murdering Three Dutch
Children.

LITTLE ONES SOUGHT FOOD

Boy Attempts to Carry Wounded Brother
on His Back When Shot from Trooper's
Rifle Kills Both, the Sister Dying Soon
Afterward.

Liverpool, April 8.—A former trooper of the Bushveldt Carbineers, who has returned here, is quoted as saying that the convicted Australian officers belonging to that corps, since disbanded, murdered from thirty-five to forty persons.

As an instance of their cold-bloodedness, the trooper relates how three Dutch children, 2 to 12 years of age, and their little sister, arrived at the Carbineers' camp to surrender, in order to be given food. The girl and one of the boys was wounded. The uninjured boy took his little brother on his back and was carrying him off when a second shot killed both boys. The girl died shortly afterward.

A dispatch from Lord Kitchener says Commandant Kritzinger, who was captured by General French at Hanover Road, Cape Colony, Dec. 7 last, and who has been tried by court-martial on the charge of having committed four murders, in addition to train wrecking and cruelty to prisoners, has been acquitted, and is being well treated as an ordinary prisoner of war.

Lord Kitchener reports that the Boer casualties during the engagements of March 31 and April 1 were at the lowest estimate thirty killed and eighty wounded.

Commandant Erasmus was killed near Boshof, Orange River Colony, April 3.

The Sheffield Telegraph published a report that Lord Rosebery was going to South Africa at the request of King Edward. It was received with no credence, and probably arose from the fact that Lord Rosebery's son, Lord Dalmeny, is joining his regiment at the front. Lord Rosebery is at present in Naples.

The house of commons reassembled yesterday, after the Easter recess. An early opportunity was taken to press the government for information on the subject of the peace negotiations in South Africa, but the government leader, A. J. Balfour, declared the ministers had nothing in that connection to impart to the house.

Answering a question about the General Buller controversy, the war secretary, Mr. Bradrick, said, in view of the statement of General Buller, it had been decided to publish all the letters and dispatches relating to the Spion Kop engagements forwarded to the war office by Lord Roberts. The order forbidding General Buller to publish the documents would not, however, be rescinded.

Amsterdam, April 8.—The Boer bureau has published a report sent last January by General Delarey to Mr. Kruger, and which is countersigned by Ignatius Ferreira, the acting state attorney. This report contains numerous stories of alleged British atrocities and is supported by affidavits. Besides the general accusations of placing women as screens around the British camps, as a result of which practice many women are said to have been killed, General Delarey gives specific instances, with names and dates of the killing of wounded prisoners and women. He complains that, owing to Lord Methuen's persecution, his own wife, with six children, has been wandering on the veldt for the last year. General Delarey complains also that his mother, aged 83 years, was driven into Klerksdorp, after her cattle had been stolen and her house burned.

Decides Barrett Illegal.

Wilkesbarre, Pa., April 8.—Judge Ferris has rendered an important decision in a boycott case. Last June J. E. Patterson & Co. of this city refused to grant the demands of their employees for an increase of wages. The building trades' council then declared a boycott against the firm. The court was appealed to for an injunction to prevent the trades' council from carrying out its threat. A temporary injunction was granted and Judge Ferris has made it permanent.

ALL WRONG

The Mistake is Made By Many Janesville Citizens.

Don't mistake the cause of backache.

To be cured you must know the cause.

It is wrong to imagine relief is cure.

Backache is kidney ache.

You must cure the kidneys

A Janesville resident tells you how it can be done:

Mrs. S. L. Boden of 64 S. River St. says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them but my daughter got a box at the People's Drug Co. store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions."

Miss Lillian Martin, Graduate of Training School for Nurses, Brantford, Can., now of Milwaukee, Wis., Testifies that the Hospital Doctors Rely Upon Lydia E. Pinkham's Vegetable Compound to Cure Severe Cases of Woman's Ills. She says:

"DEAR MRS. PINKHAM:—While we are taught in the training schools throughout the country to look down upon patent medicines, and while the doctors in the hospitals speak slightly of them to patients, I have found that they really know different. I have frequently known physicians to give Lydia E. Pinkham's Vegetable Compound to women suffering with the most serious complications of ovarian troubles, a rule put the Compound in regular medicine bottles and label it 'Tonic,' or other names, but I knew it was your Compound, and have seen them fill it in prescription bottles. I have never seen anything but happy results from its use; inflammation and ulceration has been relieved and cured in a few weeks, especially where your Sanative Wash has been applied also. I feel it but due to you to give proper credit for Lydia E. Pinkham's Vegetable Compound; I have great faith in it and often recommend it to others."—MISS LILLIAN MARTIN, 384 27th Ave., Milwaukee Wis.
